Susan,

I mentioned to Pam yesterday afternoon that we were getting close to the 1.4 million and that we would need to discuss with her and Carl next week. I also mentioned that Gary indicated that we might need additional funding, but we were doing everything to keep it below the 2 million limit. She asked if we had had discussions with TCEQ regarding them taking over when we leave. I said we still needed to have a discussion with TCEQ regarding the VCP status. Pam then mentioned we might need to have enforcement take over.
